

WE WILL HELP YOUR PEOPLE TO

Build stronger strategic partnerships

Our work at Expertized! has revealed that experts often lack connections. They work in separate corners, on very specific topics.

This brings a lack of connectedness with other experts, with “the business”, and the customer. This is what we call the EBC of releasing expertise.

Seeking a fast solution?

We will help your people to:

- Build “BIG relationships” with stakeholders
- Increase their strategic impact on the business
- Increase the delivery power of your department and fast track projects

Drive business transformation

★ Stakeholder Engagement

We teach experts how to excite their stakeholders and how to interact, specifically in difficult conversations.

★ Better Collaboration

More effective sharing of expert knowledge will lead to new insights and understanding.

★ Making expertise tangible

We connect expertise and experts to high value adding activities for the business.

★ Increase people engagement

Cross functional collaboration creates an exciting work experience and happy experts.

Business Partnering

- Principles of effective communication.
- Understanding the clients perspective.
- Getting your message across.
- Influencing as a professional.
- Engaging people.
- Exciting Stakeholders.

State of the art learning

- Blended learning solution with short class room interventions and a personalised and digital learning path.
- We have been consulting for over a decade.
- We will teach you all our tricks.

Reinventing Experts

- What if experts could re-invent themselves and bring your company into a higher level of performance.
- We don't want you to unlearn things.
- We challenge you to broaden your area of possibilities.
